

LAUTARO NASELLO

FULLSTACK WEB & MOBILE
DEVELOPER

SUMMARY

As a fullstack developer, my goal has always been to deliver the best possible product to the client and stay up to date with constant new technologies.

I not only enjoy learning technical programming skills, but I'm also interested in growing as a person to be happy with my work and who I am at the end of the day. Although I specialize as a fullstack developer, I am very interested in user experience (UX/UI) and process automation with AI. I'm highly motivated by both personal and professional challenges.

CORE SKILLS

Web and mobile development.
Project documentation.
AI Spec-Driven Development.
Work team management.
Problem solving.
Creative thinking.
Autonomous research.
User training.
Adaptability to workflow.
